SAN FRANCISCO IS THE CHAMPION HOG

EXAMINE THIS BILL WHICH
WOULD BRING ABOUT THE
COUNTY'S ANNEXATION.

San Francisco Would Manage the
Election—We Might Be Permitted
to Vote—That's All.

Here is the very latest scheme in annexation. It is to be found in assembly bill No. 290, introduced in the assembly by Mr. Ryan of San Francisco and in senate bill No. 813, introduced in the senate by Senator Thomas Finn of San Francisco.

Both these bills are now in the hands of the proper committees and while Assemblyman Henry Ward Brown declares that the members of the committee are inclined to give San Mateo county a square deal it behooves the county citizens to get busy if they do not desire to be lifted bag and baggage into the County of San Francisco with scarcely a voice in the proceedings, says the Santa Cruz Sentinel.

According to the bills (they are alike in wording) almost everything rests with the board of supervisors of San Francisco. Should they desire to annex San Mateo county it is within their province to proceed with the work. Every election officer in both counties will be selected by them and the entire management of the election will rest in their hands. The people of San Mateo county will, of course be given a chance to vote, but the expression of their opinion may count for naught if San Francisco desires the territory in question.

Some of the startling sections of the proposed law read:

Section 1. It shall be competent for any consolidated city and county now existing, or which shall hereafter be organized, to annex any territory contiguous to such consolidated city and county, unincorporated or otherwise, whether situated wholly in one county, or parts thereof be situated in different counties, said annexed territory to be an integral part of such city and county, provided that such annexation of territory which was, at the time of the original consolidation of the annexing city and county within the county from which such annexing city and county was formed, together with territory which was concurrently, or has since such consolidation been joined in a county government with the area of the original county not included in such consolidated city and county.

The legislative body of said city and county proposing such annexation, is hereby empowered to and it shall appoint the officers of such election, who shall be, for each voting place in such territory two judges and one inspector.

Such legislative body of said city and county proposing said annexation is hereby empowered, and it shall be its duty to establish, and in such notice of election to designate the voting precinct and precincts and the place or places at which the polls will be open for such election.

Sec. 5. If it shall appear from a canvass of the returns of the election held in the county within which the territory proposed to be annexed to said city and county is located, and it shall further appear from a canvass of the returns of the election held in the territory so proposed to be annexed, that a majority of all the votes cast in such county, and also that a majority of all the votes cast in such territory to be annexed, and the question of such annexation, are in favor of such annexation, such legislative body must then submit to the electors of such city and county proposing such annexation the question whether such territory shall be annexed to, incorporated in and made a part of such city and county.

Upon the completion of such annexation all persons then occupying or possessing the several offices of or under the government of any such incorporated city, city and county, or town, or unincorporated territory so annexed, shall immediately quit and surrender the occupancy or possession of said offices, which shall thereupon cease and terminate and they shall severally forthwith deliver all moneys, funds, books, papers, archives and records in their custody and all other property of such county, incorporated city, city and county, or town or unincorporated territory in their hands or under their control, to the proper officers of such annexing city and county; provided, however, that any regularly constituted superior court of this state existing at the time of such annexation, within any such county, incorporated city, city and county, or town, or unincorporated territory, so annexed, shall upon the consolidation of said territory as a part of said city and county, under the terms of this act, become a regularly constituted superior court of the state in and for said city and county, and any person or persons so occupying the position of superior judge in any such annexed territory shall continue to occupy said position as judge or judges of the superior court of the

state in and for said city and county to the end of the term of office for which he or they may have been elected or appointed with the same salary as heretofore attached to said position, and thereafter such position shall continue to be filled as provided by law, and at the same salary as fixed by law for the judges of the superior court in and for said city and county.

GYPSIES WILL MOVE ON;

COLMA BREATHES EASILY.
Attorney James T. O'Keefe went to Colma Monday and settled in a very few minutes the trouble between the citizens of that place and the gypsies. The gypsies had been causing the people of the north-end of the county considerable annoyance and several of the tribe were on trial for stealing wood. Attorney O'Keefe, representing the gypsies, managed to secure a suspension of sentence for his clients on their promise to get out of town. So at last the people of Colma will breathe easily.

DEATH OF MRS. WILL GARD, FORMER LOCAL RESIDENT

The news of the death of Mrs. Will Gard at Fresno last Wednesday has caused profound sorrow among her many friends in this city. Mrs. Gard is best remembered to the old residents of Redwood City as Nan Weaver.

The Weaver family resided in this town over thirty years ago. Nan Weaver was born here and with several brothers and sisters attended the local schools. Many of Redwood's most prominent people were her classmates. The family afterwards moved to Fresno, where Nan Weaver married and where she had made her home up to the time of her death.

Although away from Redwood for many years, Mrs. Gard could never forget her native town, and every year would find her back visiting at the home of one of her many friends, among whom were Mrs. George Holden and Mrs. M. E. Hanson.

Mrs. Gard is survived by her husband and three children.

BILL FOR WIVES BEATEN IN THE LEGISLATURE

The Butler community property bill which was introduced to put the wife on an equality with the husband in the matter of community property, was refused passage by the Senate judiciary committee at Sacramento last week.

Senator Butler, in advocating the passage of his bill said, "The wife shares all the troubles and cares of the husband in accumulating the property, yet at death she is discriminated against. It is only simple justice to put them on an equality."

Senator Campbell, an ardent supporter of the bill, said that several lawyers in the Senate objected to its passage because of their fear of having to get down to hard work, as there wouldn't be any estates to probate.

THE RESURRECTION.

Nearly nineteen hundred years ago a bigoted priesthood dragged a lowly preacher before a haughty governor and shouted him to death. His body was buried, but there arose from his tomb a spirit of truth that has upset the power of his murderers and made the things for which they stood a by-word. "Truth, crushed to earth, rises again."

Again has the world succeeded in burying the Christ. The spirit of His life and message is largely lost to view in the travesty of its preachment and the "practices" of His religion are the hard and fast conventions of man-made rules. "To worship in spirit and in truth" has become the opportunity of the individual only. The business world has almost forgotten the principle, "It is more blessed to give than to receive." In the struggle for the almighty dollar, men and women today trample ruthlessly on the necks of their weaker fellows and laugh gleefully at their victories. "To have and to hold" is the motto of merchandise. Everyone knows how true it is that where a principle, publicly professed, runs counter to a business interest, privately admitted, the conviction goes by the board.

In the titanic turmoil of the world at large the animal side of man is rampant. Brute force is to determine the destiny of our nations. "May the best man win and the devil take the hindmost," is our pronouncement of neutral broad mindedness. "Might makes right," so of course great armies and great navies can do no wrong. We render unto Caesar more than is Caesar's, and ignore the claim of God entirely.

So, for three days the Christ is again buried. But just so surely as Caiaphas and Pilate of old passed into calumnious oblivion by an iniquitous self advancement, so must the priests and potentates of a false foundation soon to-day crumble with their institutions into dust.

Out of the rock hewn tomb of bigotry and despotism there will come forth the preacher of the gospel of "Sonship to God" and "Peace on Earth." Man must learn the lessons of "Brotherhood to man" and "The divine in the human." The panoply of place must give way to the perfection of the personal.

The Resurrection of the Way, the Truth and the Life is beginning even now to shed its roselight glow over the dawn of a new Easter. The spirit of the humble Master, Jesus of Nazareth, is being breathed into the nostrils of mankind and in time, in God's good time, it will become the Breath of Life. "Truth, crushed to earth, will rise again."

OLD PROPHECY BEING FULFILLED

Mrs. Nellie Prior, wife of Professor Philip Prior, who has been the principal of the Bay View grammar school of San Francisco for a great many years, penned the following lines just thirty years ago concerning Redwood City, for the Times-Gazette and are reproduced. The prophecy made then by her is rapidly being realized. Mr. and Mrs. Prior are residents of this city and are great boosters for the peninsula.

Nestle by the hills broad breast,
 High walled around by mountain crest,
 Fringed by trees towering high,
 That stand like sentinels beneath the sky.
 The flowering hills that skirt thy way,
 Slope into valleys that richly sway,
 With golden crops of ripening grain,
 Fair harvest of a bounteous plan.
 Fair Redwood, thou whose summer time,
 Recalls the wanderer to thy clime,
 Gives life to youth and youth to age,
 Where all may turn life's flowery page.
 Thy creek that wanders lonely the way,
 Bright from thy shore to ocean's bay,
 Shall bring to thee, ships with full store,
 Returning then shall bring thee more.
 Fair Redwood, 'tis thy magic clime,
 A great city thou shalt be, beautiful, with time,
 A mystic spell is cast 'er thee,
 The mystic spell of future.

MRS. NELLIE PRIOR.

 F. Madden has completed a number of improvements to the front of his store building.

Although but a baby municipality of the county, San Bruno is already making preparations to increase its boundaries. The plan has the endorsement of the Lomita Improvement Association.

M. Loss, who recently purchased the Cypress Lodge near Beresford, is doing a splendid business. He is not running the place at a loss by no means. Mr. Loss has changed the name of the resort to the "Inn." It is being conducted as a cafe, liquor is only served at meals. It is Mr. Loss' idea to conduct the resort in a respectable manner, a place where any lady or gentleman may go and have a delicious meal.

BELMONT NOTES.

R. H. McGowan, the newly appointed postmaster of Belmont, took the oath of office on the first of the month. Mr. McGowan has moved the post office to the Johnston building, where new and up to date quarters will be arranged.

WOODSIDE NOTES

The mile of new road just completed past the Tripp property is one of the finest in the peninsula. It was constructed from funds of the third district and under the supervision of Roadmaster Frank Johnston. The thoroughfare leads to King's Mountain.

Mr. and Mrs. Robert Frank returned from Gilroy Hot Springs Monday after spending two weeks at the delightful place.

Barney Bernesque is building an attractive fence around his property near grammar school.

The fear that the Woodside post office, which has been in existence for sixty-five years, would have to close because the government could not find any one to take the job, was dispelled this week.

Neuman Bros., who conduct a general merchandise store at Woodside, have signified their willingness to accept the trials and tribulation attached to the office and have made application for the appointment.

FROM THE COAST SIDE

Three new memorial windows have recently been installed in the Montara-Fallone church.

Mrs. George Clark has returned to her home at Montara after an extended visit to the Santa Clara valley.

Mrs. R. R. Ripley, lately of San Mateo, has purchased from Misses C. A. and M. E. Shultz the Original Candy Store at Halfmoon Bay.

By a practically unanimous vote the residents of the Montara school district have endorsed the proposed bond issue of \$10,000 for the purpose of erecting a new school house. It is the plan of the trustees to erect the new building after designs similar to the one destroyed by fire some months ago.

Will Marsh and family are now occupying the recently completed Fred Vallejo cottage at Halfmoon Bay.

Henry Walters, son of Rev. A. F. Walters of Halfmoon Bay, left a few days ago for Crescent City, where he will take up his duties as assistant lighthouse keeper at St. Georges Point, one of the most important stations on the Oregon coast.

EXTENSIVE STREET IMPROVEMENT PLAN

City Council Makes Preliminary Order for Work in Many Sections of the City

Almost the entire time of the adjourned session of the city council Monday evening was devoted to the consideration of tentative plans for street work and, from the scope of the territory included in the discussion, it is evident that if even a considerable portion of the improvements suggested are carried to a conclusion Redwood City will witness another material betterment of the general condition of its streets during the coming summer. Evidently the members of the street committee, had given the subject careful consideration, for there was readily shown a thorough familiarity with the needs of the various sections considered. While, however, there was a general disposition manifest to insist upon the completion of all necessary work, there was a slight absence of unanimity of agreement. While Trustee Tuchen, who is chairman of the street committee, gave his sanction to preliminary orders for plans for the work, it was with the reservation that in some cases, at least, he must be further convinced of the need and advisability of its immediate prosecution and the desire of those most directly interested that it should be done. In taking this stand, Trustee Tuchen urged that under present conditions, owners of property should not be put to more than absolutely necessary expense and that before final action was taken all interested should be given full opportunity to be heard as to their desires. While the correctness of this position was admitted, it was insisted that there should be no unnecessary delay in arriving at conclusions and with this end in view City Engineer Sears was instructed to prepare plans and specifications for the following improvements and betterments:

Cement curbs and sidewalks—Brewster street from Arguello to County road; Broadway from Arguello to County road (excepting the railroad right of way); Washington street from Bradford to Webster; East Jefferson from Webster to County road (where not already laid) Jefferson from County road to Adams; Webster from Broadway to Marshall; Hamilton from Broadway to Marshall; Winslow from railroad right of way to Marshall.

Street work—Brewster avenue from railroad right of way to County road, water bound macadam and oil top; Arguello from Broadway to Roger; Brewster from Arguello to railroad right of way; Roger from Arguello to County road; Winslow from railroad right of way to Broadway; Washington from Bradford to Webster; East Jefferson from Webster to County road (oil top); Main street (formerly Mount street) from railroad right of way to County road (Toppel's top).

Trustee Tuchen, for the street committee, submitted a plan designed to remedy present unsatisfactory conditions on Broadway between Main and Washington streets. This plan included the laying of 12-inch storm sewers on both sides of Broadway, to discharge into the creek at the bridge, and the construction of concrete gutters on each side of the street between the points named. Discussion of the report indicated this to be the most feasible method of disposing of a difficulty which has been a source of constant annoyance and expense, and, with the understanding that cost of the improvement should be a charge against the abutting property, City Engineer Sears was instructed to prepare the necessary plans and specifications for the work.

NEW PLAN IS SUGGESTED FOR FILLING OF CENTER STREET

Broadway to Have Storm Sewers and Concrete Gutters.

All of the trustees were present at the adjourned meeting of the council Monday evening. Chairman Merrill presiding. While, as Chairman Merrill aptly phrased it, "this was street improvement night," several matters of minor business were given consideration. An application from A. J. Rhodes of Oakland for permission to conduct what he termed a "legal game of 26" was given an emphatic turn down, the Trustees emphatically expressing their opinion that this character would be permitted, much less licensed, in this city.

City Electrician M. E. Ryan presented a plan for the illumination of the courthouse front and grounds on the evening of the Floral Festival, which he estimated would involve a cost of \$240. This appeared to be a considerably larger sum than the trustees were ready to expend and several other methods of illumination were suggested. This ended with the proposal by Chairman Merrill of plan for the permanent lighting of at least that portion of Broadway with electric lights, a suggestion which it was hoped might induce the co-operation of the board of supervisors.

Street Superintendent Dickey recommended the sweeping of Broadway and Main streets every night during the summer months, the additional cost which would not exceed \$50 per month. The recommendation was adopted and the street superintendent authorized to arrange for the additional work.

City Attorney Mansfield presented the preliminary resolutions of

intention for the ordering of the opening of Oakdale avenue in Wellesley Park to connect with Duane on a statement that a number of street in Redwood Highlands. Upon the statement that a number of the owners of property in Wellesley Park desired to be heard with reference to the assessment district to be designed, action on the resolution was deferred until the regular meeting next Monday evening.

Through Chairman Merrill, a request from the Redwood City Harbor Company for permission to use the gasoline engine belonging to the city. In presenting the request it was explained that it was the design of the Harbor Company to experiment in the construction of a temporary suction dredger which might be used in the pumping from Redwood Creek of material to be used in the filling of the street in front of the city hall. Should the experiment prove the success which it is hoped, the filling of this street can be secured at a comparatively small cost.

The matter of bringing the block books and property assessment up to date, was referred to the finance committee.

The city attorney was instructed to draft an ordinance for the removal of weeds from vacant lots and other places.

A communication from Redwood City Harbor Company signifying its acceptance of the street railway franchise in accordance with requirements of the ordinance, was received and filed.

Street Superintendent Dickey submitted a list of the curbs and sidewalks on Stambaugh and Phelps streets that were in bad shape, and he was instructed to notify the property owners to make the necessary repairs.

Clerk Plump was instructed to make application to the State Industrial Accident Commission for all city officials and employees, with the exception of the members of the fire department. The reason for the omission of the members of the fire department was that insurance of this class would provide no additional protection to that now afforded by the city. Trustee Hahnevoiced an emphatic opposition to this order, expressing the opinion that the cost was an excessive one, out of proportion to the risk assumed by the insurance commission.

JUDGE BUCK CERTIFIES TO LABEN LANGLEY'S SIGNATURE

Judge Buck on Wednesday rendered a judgment in favor of the plaintiff in the case of Mary Rice against Abbie Langley, administratrix of the estate of Laben Langley, deceased, for \$2138.21, the amount of a promissory note executed by Laben Langley during his life time. The court also rendered a judgment in favor of Henry Koop for \$731.03 against the same defendant, also for a promissory note. The defense questioned the signature of Laben Langley, holding that they were not genuine. The court decided the case in a very few moments as it was familiar with the handwriting of the deceased capitalist. R. M. Wright, the well-known San Jose attorney, appeared for the plaintiff in the actions.

The Debating League of California, organized for the purpose of debating and public speaking, and composed of many high schools of the state, have extended an invitation to the Sequoia Union High School to attend their thirty-fifth semi-annual convention, to be held in the Civic Center Auditorium in San Francisco, on Saturday, April 25th, 1915.

This League is the oldest of its kind in the state, being organized in 1898, holds debates monthly, giving medals and other prizes to all winners, and is managed by the high school students. President Jere F. Lowney has expressed the hope that our high school will become a member of this League and thereby increase its prestige in San Mateo County.

Mayor James Rolph, Jr., of San Francisco, has said that "this League deserves the unqualified support of every high school in the state. Its objects are most commendable."
